## SUMMARY

Senior Full Stack Developer with 5+ years of experience building scalable SaaS platforms, RESTful APIs, and high-performance web applications. Specialized in Laravel, PHP, React.js, and MySQL, with strong expertise in system architecture, database optimization, and payment gateway integration. Experienced in delivering B2B and B2C platforms, e-commerce solutions, and enterprise dashboards with a strong focus on performance, scalability, and clean maintainable code.

## PROFESSIONAL EXPERIENCE

### Full Stack Developer — Freelancer

- Developed full-stack applications using **Laravel, React.js, MySQL, REST APIs**.
- Built scalable platforms including **HR, School Management, E-commerce...**
- Implemented secure backend services and optimized database architectures.

04/2020 – Present  
Amman, Jordan

### Full Stack Developer - CSP

- Developed a contract management platform using **Laravel, MySQL, and Bootstrap**.
- Enabled contractors and consultants to **create, manage, and sign agreements through a centralized system**.

03/2025 – Present  
Riyadh, Saudi

### Full Stack Developer — Media World

- Developed backend services, RESTful APIs, and dashboards using **Laravel**.
- Built B2B/B2C services and mobile APIs supporting **3abee** and **3abeeGO** platforms.

04/2023 – 05/2025  
Amman, Jordan

### Backend Developer — GEEL Tech

- Built backend modules and REST APIs using **Laravel**.
- Integrated payment gateways: **PayPal, Visa, PayMob, and Tap**.
- Worked on platforms including **Mazadak, BioFood, FCNS, and FixPress**.

09/2022 – 03/2023  
Amman, Jordan

### Frontend Developer — TandraTech

- Developed responsive interfaces using **React.js, JavaScript, HTML5, and CSS3**.
- Improved performance and fixed frontend bugs.

07/2021 – 07/2022  
Damascus, Syria

### Backend Developer — StorexWeb

- Maintained and improved legacy backend systems using **PHP and SQL**.
- Optimized database queries and improved system performance by **40%**.

09/2020 – 03/2021  
Damascus, Syria

## SKILLS

### Backend Development

- PHP, Laravel, PHP, OOP, MySQL, SQL Optimization, RESTful API Development, API Integration
- Authentication & Authorization, JWT, Sanctum, Payment Integration (PayPal, PayMob, Tap, Visa)
- Node.js Basics, Microservices Basics

### Frontend Development

- React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Vue.js Basics, AJAX, Firebase Integration

### Software Engineering

- System Design, Scalable Architecture, Clean Architecture, Design Patterns, Agile Methodology
- Algorithms & Data Structures, Database Design, Performance Optimization

### Tools & DevOps

- GitHub, Bitbucket, Docker, Linux, CI/CD Pipelines (Jenkins), Postman, Jira, Trello, Git Flow
- Unit Testing Basics, Cloud Deployment (DigitalOcean / AWS Basics)

## TECHNICAL PROJECTS
